What is chemical peel?

LDR Peel Means "removing the outer layer", in other words "refining". It is a process of exfoliation of horny cells, A new layer of healthy skin, resulting in a brighter and more even complexion. A chemical peel stimulates the growth of new cells, plumping the skin, helping to improve texture and tightening the grain.

We have 3 types of peels.

1. Clear up peel with vegetal extracts (Acne prone skin)
2. Radiance peel with peptides (Brown spot & hyper pigmentation)
3. Timeless peel with peptides (Sign of ageing)
